

## Greatearth OSH Performance 2017

In 2017, Greatearth Pte Ltd (the “Group”) continues to work with staff and stakeholders to sustain an all-embracing Workplace Safety & Health (WSH) culture and environment. Efforts to improve WSH performance included utilising electronic permit-to-work approvals for faster and more accurate assessment of WSH, analysing statistical figures through safety reports to localise potential issues, as well as inspection of workplaces by management to uphold WSH standards.

As a result, the Group fulfilled its OSH objectives in 2017 and for that, Greatearth Corporation Pte Ltd won a WSH SHARP Award for *GEM Residences* and UG M&E Pte Ltd won a WSH Performance (Silver) Award at WSH Awards 2017.

In line with its WSH policy and practices, the Group has helped its business partners upgrade their bizSAFE status from level 3 to level 4 in 2017 by providing them with training and other resources. The Group has also since revised its contract obligation for business partners to possess at least bizSAFE level 4.

Going forward, the Group will continue to strive for zero reportable accidents as well as improve and better all-round WSH performance.
